

# Replacement Sheet for Figure 15

Network management options 1510		Traffic data 1520	
Process name 1505	Options 1515	Parameter name 1523	Value 1525
Inside plant maintenance 15051	1	Revenue per Mbps 15230	
Outside plant maintenance 15052	0	Percentage revenue generated bandwidth 15231	
Network engineering 15053	1	Average busy hour traffic per user (bps) 15232	
Network provisioning 15054	1	Percentage intra-domain traffic 15233	
Installation 15055	0	Percentage inter-domain traffic 15234	
Testing 15056	1	Mean duration of a voice call (seconds) 15235	
Repairs 15057	1	Payload rate per user (bps) 15236	
Customer data 1530		Percentage voice link utilization 15237	
Parameter name 1533	Value 1535	Percentage increase in capacity 15238	
Number of customer sites per NE 15331		Average bandwidth per link (Mbps) 15239	
Number of buildings 15332			
Building entry cost 15333			
Leased per building cost 15334
